LED POWER 04216125165 Specification

1. Introduction

LED POWER 04 series lighting is using high wattage SMDLED, which is specifically design for industries machine. It has several features, which are long life time, low heat, safety, high brightness and stable, it also very convenient to set up. The whole lamp body made by metal tempering glass lamp cover, with slim body design and end cap type setting mode, illumination angle 120 and adjustable it is a modern looking and high usability industries lighting.

2. Details

Series: LED Super Slim Lamp
 Input Power: 24V DC (Red: + Black: -)
 Light Source: SMD2835 LED
 Water proof rating: IP67
 Width: 65mm
 Working Temperature: -15°C ~ 50°C
 Cable: M12 metal connector, Hole Φ3-6.5mm

Model: LED POWER 04216125165
 Power: 12W
 Lumen: 1440lm
 Height: 55mm
 Setup Size: 263mm
 Lamp Cover Material: Glass

3. Lighting Serial number regulation

Main model name of lightin	Voltage	Color Temperature	Lamp cover	Cable connector	Customer number
LED POWER 042	1-DC24V 2-AC24V 3-AC110-220V 4- AC110V 5- AC220V	3-3000K 4-4000K 6-6500K	1-Transparent glass 2-Frosted glass	1-Nylon connector 2-Metal connector 3-Soft cable connector	5165

4. Setup size diagram (unit: mm)
