SPEETEER

LED POWER 054A36225165 Specification

1. Introduction

LED Power 05A the whole lamp body made by metal with tempering glass, adjustable setting angle which is suitable for different consumer requirement.

It has several features, which are long life time, low heat, safety, high brightness and stable, it also very convenient to set up.

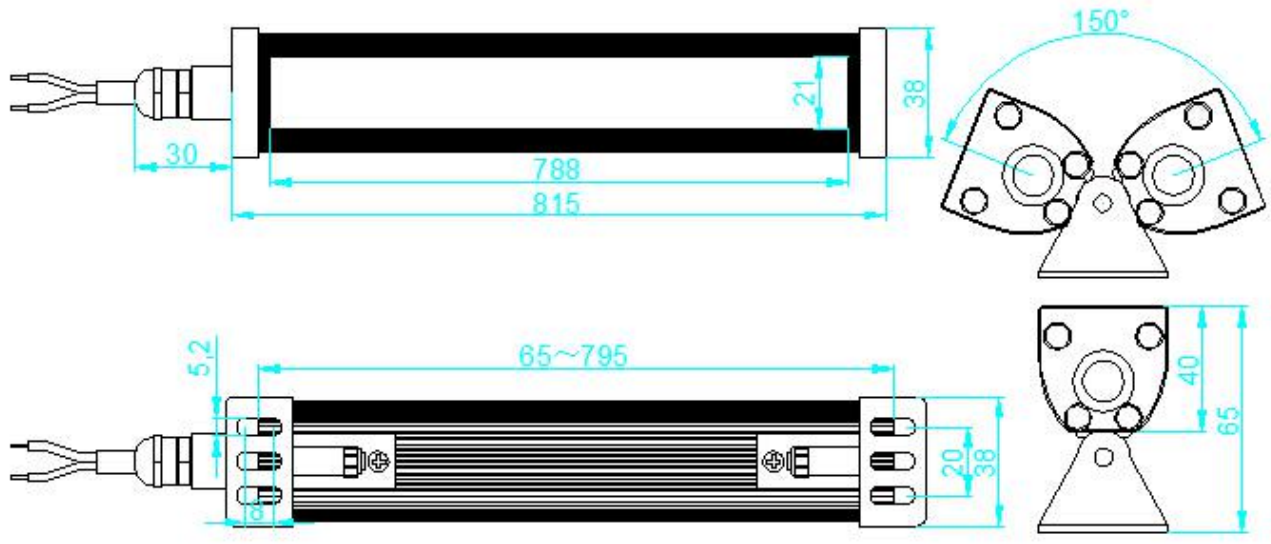

2. Details

Series: LED Strip Industries lamp
Model: LED POWER 054A36225165
Input Voltage: AC 110-220V
Power: 29W
LED Source: SMD2835 LED
Lumen: 3456lm
IP Rating: IP67
Height: 65mm
Width: 38mm
Length: 815mm
Working area Temperature: -15℃～50℃
Lamp Cover: Tempering Glass
Cable standard: M12 meter connector, HoleΦ3-6.5mm

3. Lighting Serial number regulation

Main model name of lightin	Voltage	Color Temperature	Lamp cover	Cable connector	Customer number
LED POWER 054A	1-DC24V 2-AC24V 3-AC110-220V 4- AC110V 5- AC220V	3-3000K 4-4000K 6-6500K	1-Transparent glass 2-Frosted glass	1-Nylon connector 2-Metal connector 3-Soft cable connector	5165

4. Setup Structure（unit：mm）

IP rating IP67 Dust and Water Proof Grade

CE RoHS
