

Spill Containment SCP

Poly Spill Pallets (4 drum) 804004

Acquired CE. Manufactured in accordance with the regulations of EPA 40 CFR 264.175, SPCC 40CFR112.7, NPDES 40 CFR 122.26.

Poly Spill Pallets 4 drum

Drum spill pallet with built-in drain are made from 100% Polyethylene by injection molding.

Polyethylene yellow base and black grating are anti-UV, anti-rust, anti-corrosion and compatible with most chemicals.

1. Suitable for drum capacity not over 208 liters / 55 gallons.
2. Enhanced side frame and central load-bearing structure made it strong and durable.
3. Anti-skid gratings are safely to hold and store the oil drums, chemical barrels and other storage containers.
4. Removable, easy-to-assemble and anti-skid grates can be lifted out for quick access to maintenance, cleaning and decontamination.
5. Forklift Entry: 4 ways for 4 drums spill pallet
6. Working temperature from -35 to +65, briefly up to +85 Deg C (-20 to +110, briefly up to +194 Deg F).
