

How to operate the semi electric stacker?

Step One:

Turn on the power cutting button by clockwise rotation/rotate right.

Step Two:

Turn on the key of power.

Step three:

To lift: push the handle up;

To lowering down: to pull the handle down.

Warning Note:

1. This stacker move around by manual. When moving the stacker, mast must be lowered down for safety concern. Lifted mast during moving may cause danger of tip over of the stacker.
2. When finish using the stacker, turn off the key, and push the RED power cutting bottom to cut the power.
