

PGB/PGBF Series LED Lighting

The lighting shell is made of aluminum alloy, modified nylon and tempered frosted glass. The surface has been frosted and electrostatic oxidation treatment. It has the characteristics of waterproof, dustproof and novel structure. It mainly suitable for special environmental lighting such as machining equipment, electrical automation equipment and special work table, etc.

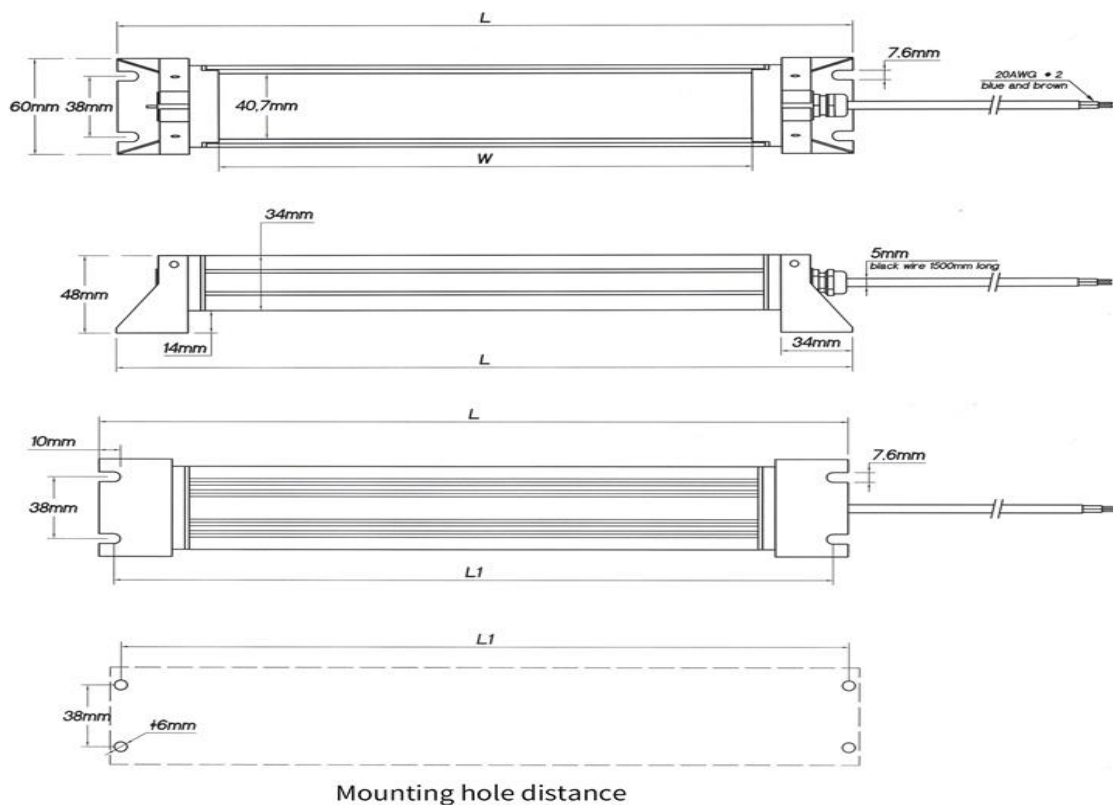

- Rugged and durable for harsh environments
- Waterproof, dustproof and oil-resistant with IP67
- High light efficiency with patch type LED
- Input voltage of 24V DC or 100~250V AC

Model

Specifications PGB/PGBF

Light Source	Color Temperature	Working Temperature	Protect Level	Product Certification
SMD LED	6000K~6500K	-30°C~50°C	IP67	CE, RoSH

Model	Voltage Input	Power Consumption	Luminous Flux	Shade Material	Size	
					L1	L
