

C-400 oil and refrigerant checker

ZT020008

Functions :

- Extract mixture of oil and refrigerant from A/C system
- Quick and easy to make A/C status analysis

- Vision window ZT020016
- Refrigerant hose (red) , 1m BZ030025
- Refrigerant hose (blue) ,1m BZ030026
- R134a H/P quick coupler (red) BZ130037
- R134a L/P quick coupler (blue) BZ130038

C-500 oil and refrigerant demo samples

ZT020009

Functions:

- Demo samples corresponding to different oil and refrigerant mixture
- Visible and easy to diagnose A/C status

State Analysis

NO.	State	Description
A	Healthy	Good oil and refrigerant mixture Transparent, well mixed and dissolved
B	Immiscible	Oil and refrigerant stay apart in two layers Improper oil, refrigerant or both in A/C
C	Worn	Oil has changed color because of over heat, acidification and regular wearing (around 3 years no oil exchange)
D	Seriously worn	Oil has been worn out because of serious or long time (5 years or more, no oil exchange) overheat, acidification or wearing
E	Metal powder in A/C	Compressor damaged or very closed to get damaged

Air Conditioning Charging Device ZT020012

- Pressure gauges subassembly BZ060023
- Refrigerant hose (red) , 1.4m BZ030050
- Refrigerant hose (blue) , 1.4m BZ030051
- Refrigerant hose (yellow) , 1.4m Bz030052
- R134a H/P quick coupler (red) BZ130037
- R134a L/P quick coupler (blue) BZ130038

Air-002 Evaporator flush Device ZT020006

Advantage:

- 4.3-inch, TFT full color LCD display
- Atomized spray, power wash and rinse
- Built-in high-capacity lithium battery, long standby time
- Spray hose can bend in 360 degree, make sure to flush the evaporator thoroughly

A/C Equipment Service Kit ZT020017

- ① Vacuum pump oil:1 pcs RJ010017
- ② Filter drier:1pcs BZ070005
- ③ Service hose washer:4pcs DZ090078
- ④ Solenoid valve plunger:11pcs MK010017
- ⑤ Belt wrench:1 pcs YS050016
- ⑥ Solenoid valve O-ring:11 pcs BZ110087
